Login & Account Access

The login page is your gateway to Air4.media. From here you can sign in, create a new account, or recover access if you've forgotten your password.

Key Features

- **Email & Password Login:** Sign in securely with your registered email and password.
- **Google Sign-In:** Log in instantly using your existing Google account — no separate password needed.
- **New Account Registration:** Create an account with your name, email, phone number, and a secure password.
- **Email Verification:** New accounts require email verification before you can log in. A 6-digit code is sent to your inbox (expires in 10 minutes).
- **Password Reset:** Forgot your password? Request a reset link sent directly to your email, valid for 60 minutes.
- **Multi-Factor Authentication (MFA):** Accounts with MFA enabled are prompted to verify via email code, SMS, or Google Authenticator after signing in.
- **Spam Protection:** Registration and password reset forms are protected by Google reCAPTCHA to block automated abuse.

How to Use

Signing In

1. Enter your email address and password.
2. Click **Sign In**.
3. If MFA is enabled on your account, complete the verification step.
4. You will be taken to your dashboard.

Signing In with Google

1. Click **Continue with Google**.
2. Select your Google account and grant permission.
3. First-time users will be asked to provide and verify a phone number via SMS — this enables security alerts and MFA on your account.
4. You will be signed in and taken to your dashboard.

Note: Google Sign-In is not available inside in-app browsers (Facebook, Instagram, Messenger, etc.). If you see a warning message, open this page in Safari or Chrome first.

Creating a New Account

1. Click the **Register** tab.
2. Enter your full name, email address, and phone number (international formats supported).
3. Agree to SMS communications — required for security alerts and verification codes.
4. Choose a password (at least 8 characters with uppercase, lowercase, and a number).
5. Click **Get Your Boarding Pass**.
6. Check your email for a 6-digit verification code to activate your account.

Verifying Your Email

If your account is not yet verified, you'll see a verification screen after attempting to log in.

1. Check your email for the 6-digit code.
2. Enter the code and click **Verify**.
3. Didn't receive the code? Click **Resend Code**.
4. Used the wrong email? Click **Change Email** to update your address and resend.

Resetting Your Password

1. Click the **Reset Password** tab.
2. Enter your email address and click **Send Reset Link**.
3. Check your email for a reset link (valid for 60 minutes).
4. Click the link and choose a new password.

Tips

- Passwords must contain at least 8 characters, one uppercase letter, one lowercase letter, and one number.
- The 6-digit verification code expires in 10 minutes — click **Resend Code** if it times out.
- If you registered via Google, use the **Continue with Google** button each time rather than email and password.
- Check your spam folder if you don't receive verification or reset emails within a few minutes.
- For security, repeated failed login attempts are rate-limited — if you're locked out, wait a few minutes before trying again.
