✈️ Flying License — \$499 one-time

Earn your wings. Get 12 months of Business features plus the AI Investor Deck Generator — perfect for startups ready to take off and pitch to investors.

Get Your Flying License →

Why pay \$400/mo for just a cargo hold?

Competitors like MediaGraph charge \$400/mo for AI-powered asset management alone. Air4 First Class gives you a complete DAM plus CRM, email marketing, website builder, invoicing, booking, and AI chat — all for \$999/mo. Your content deserves to fly first class.

# Pricing

The Pricing page gives you a clear overview of all available Air4.media plans so you can choose the right fit for your business before signing up — no account required to browse.

## Key Features

- **Four plan tiers:** Economy, Premium Economy, Business, and First Class — each named after a travel class and sized for different team needs.
- **At-a-glance plan details:** Every plan card shows exactly what's included — users, sites, contacts, monthly emails, AI credits, and storage.
- **All modules included:** Every plan includes the full feature set. There are no add-ons or per-feature charges.
- **Intro offers:** Select plans display a discounted introductory rate directly on the card. The reduced price is applied automatically at signup — no coupon needed.
- **Flying License:** A one-time startup package for \$499 that includes 12 months of Business plan features plus the AI Investor Deck Generator — ideal for early-stage companies preparing to pitch investors.

## How to Use

1. Browse the plan cards and compare what's included at each tier.
2. Look for an **intro offer** badge on a plan card if a promotional rate is available — the discounted price is shown automatically.
3. Click **Get Started** on the plan that fits your needs.
4. Complete the short onboarding wizard: enter your business details, confirm your plan, and add a payment method.
5. Your account is ready — you'll land on your dashboard and can start setting up right away.
6. Interested in the startup package? Click **Get Your Flying License** to learn more.

## Tips

- The **Business plan** is highlighted as the most popular choice — a good fit for growing agencies that need more users, higher email volume, and expanded storage.
- All modules are always included on every plan — what changes between tiers is capacity, not features.
- The Flying License is the fastest path for startups that need investor-ready tools without

committing to a monthly subscription.

- You can upgrade your plan at any time from your account settings.
